Pre-existing Disease Waiting Period	48 months
Specific CI Waiting Period (Cancer, Heart)	90 days from policy inception

Why Critical Illness Cover is Essential

• ICMR data: 1 in 4 Indians will suffer a serious illness before age 70. • Cancer treatment in India: ₹5 lakh–₹25 lakh for surgery + chemotherapy + radiation. • Cardiac surgery (bypass): ₹3 lakh–₹8 lakh in a private hospital. • Health insurance covers hospitalisation — CI cover pays the income lost during 6–12 months of recovery. • With a ₹25 lakh CI payout: ₹5–8L for treatment, ₹10L to repay loans, rest as income buffer. • Especially important for: diabetics, hypertensives, those with family history of heart disease or cancer.

Tax Benefits

• Section 80D: Premiums paid for critical illness plan qualify for deduction. — Self, spouse, children: up to ₹25,000/year — Parents (non-senior citizen): additional ₹25,000/year — Parents (senior citizen, age 60+): additional ₹50,000/year • Maximum total 80D deduction if all members covered: ₹75,000–₹1,00,000/year.

Key Exclusions

• Pre-existing diseases (unless 48-month waiting period completed). • CIs diagnosed within first 90 days of policy inception. • Self-inflicted injury, suicide attempt. • HIV/AIDS-related critical illness. • CIs arising from alcohol, narcotics, or substance abuse. • Congenital conditions present at birth.
